DETAILED ACTION

Response to Amendment

1. Acknowledgment is made to applicant's amendment of claims 1-7, 9, and 10 as well as the filing of a substitute specification.

Specification

2. The amendment filed 04/28/2010 is objected to under 35 U.S.C. 132(a) because it introduces new matter into the disclosure. 35 U.S.C. 132(a) states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: The word "beads" has been changed to the word "particles" with an explanation that the word particles is more accurate to the original foreign document; however, no certified translation or statement from a translator has been included. Given that "beads" and "particles" have different connotations and definitions, the change is regarded as new matter until proven otherwise.

Applicant is required to cancel the new matter in the reply to this Office Action.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. Claims 1-7, 9, and 10 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to

one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The word "beads" has been changed to the word "particles" with an explanation that the word particles is more accurate to the original foreign document; however, no certified translation or statement from a translator has been included. Given that "beads" and "particles" have different connotations and definitions, the change is regarded as new matter until proven otherwise.

Response to Arguments

5. Applicant's arguments, see response filed 04/28/2010, with respect to claims 1-7, 9, and 10 have been fully considered and are persuasive. The rejection of claims 1-7, 9, and 10 under 35 USC 103(a) has been withdrawn.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
